Quick start guide Guía de inicio rápido

QRD3792-A

English

This guide is intended to guide you through the basic functions of this unit. For details, please refer to the Operation manual stored on the website.
<http://pioneer-mexico.com.mx/car>

Before You Start

Thank you for purchasing this PIONEER product.

To ensure proper use, please read through this guide before using this product. It is especially important that you read and observe **WARNINGS** and **CAUTIONS** in this guide. Please keep the guide in a safe and accessible place for future reference.

⚠️ WARNING

- Do not attempt to install or service this product by yourself. Installation or servicing of this product by persons without training and experience in electronic equipment and automotive accessories may be dangerous and could expose you to the risk of electric shock, injury or other hazards.
- Do not attempt to operate the unit while driving. Make sure to pull off the road and park your vehicle in a safe location before attempting to use the controls on the device.

⚠️ CAUTION

- Do not allow this unit to come into contact with moisture and/or liquids. Electrical shock could result. Also, damage to this unit, smoke, and overheating could result from contact with liquids.
- Always keep the volume low enough to hear outside sounds.
- This product is evaluated in moderate and tropical climate condition under the Audio, video and similar electronic apparatus - Safety requirements, IEC 60065.

The operation of this unit is subjected to the following conditions:

- It is possible that this unit or device doesn't cause harmful interference and 2) this unit must accept any interference, including the interference that may cause undesired operation.

If you experience problems

Should this unit fail to work properly, please contact your dealer or nearest authorized PIONEER Service Station.

Connections

⚠️ WARNING

- When speaker output is used by 4 channels, use speakers rated over 50W (maximum input power) and between 4 Ω to 8 Ω (impedance value). Do not use 1 Ω to 3 Ω speakers for this unit.
- When rear speaker output is used by a 2 Ω subwoofer, use speakers rated for over 70 W.
- Please refer to connections for a connection method.
- The ground cable is ground. When installing this unit or power amp (sold separately), make sure to connect the ground wire first. Ensure that the ground wire is properly connected to metal parts of the car's body. The ground wire of the power amp and the one of this unit or any other device must be connected to the car separately with different screws. If the screw for the ground wire loosens or falls off, it could result in fire, generation of smoke or malfunction.
- Two devices connected to the car separately (ground wires)
- Metal parts of car's body

*1 Not supplied for this unit

⚠️ Important

- When installing this unit in a vehicle without an ACC (accessory) position on the ignition switch, failure to connect the red cable to the terminal that detects operation of the ignition key may result in battery drain.

ACC position No ACC position

- Use this unit with a 12-volt battery and negative grounding only. Failure to do so may result in a fire or malfunction.

- To prevent a short-circuit, overheating or malfunction, be sure to follow the directions below.

—Disconnect the negative terminal of the battery

before installation.

—Secure the wiring with cable clamps or adhesive tape. Wrap adhesive tape around wiring that comes into contact with metal parts to protect the wiring.

—Place all cables away from moving parts, such as the heater lever and seat rails.

—Place all cables away from hot places, such as near the heater outlet.

—Do not connect the yellow cable to the battery by passing it through the hole to the engine compartment.

—Cover any disconnected cable connectors with insulating tape.

—Do not bundle any cables.

—Never cut the insulation of the power cable of this unit in order to share the power with other devices. The current capacity of the cable is limited.

—Use a fuse of the rating prescribed.

—Never wire the negative speaker cable directly to ground.

—Bind together negative cables of multiple speakers.

—When this unit is on, control signals are sent through the blue/white cable. Connect this cable to the system remote control of an external power amp or the vehicle's auto-antenna relay control terminal (max. 300mA 12 V DC). If the vehicle is equipped with a glass antenna, connect it to the antenna booster power supply terminal.

—Never connect the white/black cable to the power terminal of an external power amp. Also, never connect it to the power terminal of the auto antenna. Doing so may result in battery drain or a malfunction.

• The graphical symbol  placed on the product means direct current.

This unit

MVH-X3000BT

MVH-S325BT

Power cord

Perform these connections when not connecting a rear speaker lead to a subwoofer.

Important
In the case of ⑨ above, two 4 Ω subwoofers wired in parallel will represent a 2 Ω load.

Adjusting the microphone angle

The microphone angle can be adjusted.

Removing the unit (installed with the supplied mounting sleeve)

1 Remove the trim ring.

2 Screw in one screw on each side to hold the unit in place.

3 Insert the supplied extraction keys into both sides of the unit until they click into place.

4 Pull the unit out of the dashboard.

Installing the microphone

The microphone should be placed directly in front of the driver at a suitable distance to pick up the voice clearly.

⚠️ CAUTION

It is extremely dangerous to allow the microphone lead to become wound around the steering column or shift lever. Be sure to install the microphone in such a way that it will not obstruct driving. It is recommended to use the clamps (sold separately) to arrange the lead.

NOTE

Depending on the vehicle model, the microphone cable length may be too short when you mount the microphone on the sun visor. In such cases, install the microphone on the steering column.

To install on the steering column

1 Fit the microphone lead into the groove.

2 Install the microphone clip on the sun visor.

Lowering the sun visor reduces the voice recognition rate.

2 [QUIT: YES] appears.

To return to the first item of the setup menu, turn the M.C. dial to select [QUIT: NO], then press to confirm.

3 Press the M.C. dial to confirm the settings.

Tuner operation

Receiving preset stations

1 Press SRC/OFF to select [RADIO].

2 Press BAND/◀ to select the band.

[FM1] \leftrightarrow [FM2] \leftrightarrow [FM3] \leftrightarrow [AM]

3 Press a number button (1/▲ to 6/▼).

Best stations memory (BSM)

1 After selecting the band, press the M.C. dial to display the main menu.

2 Turn the M.C. dial to select [FUNCTION], then press to confirm.

3 Turn the M.C. dial to select [BSM], then press to confirm.

To store stations manually

1 While receiving the station you want to store, press and hold one of the number buttons (1/▲ to 6/▼) until it stops flashing.

NOTE

Regardless of whether the [AUTO APP CONN] setting is set to [ON] or [OFF], you can also perform the following to start Pioneer Smart Sync.

—For devices other than the USB-connected Android device, press SRC/OFF to select any source and press and hold the M.C. dial.

—For iPhone, launch Pioneer Smart Sync on the mobile device.

Listening to Spotify®

(Not available when [USB MTP] is set to [ON] in the SYSTEM settings.)

Update the firmware of the Spotify application to the latest version before use.

Before you start, connect this unit with the mobile device via USB (iPhone only) or Bluetooth.

1 Enter the SYSTEM menu (refer to "About the main menu").

2 Turn the M.C. dial to select [APP CONTROL], then press to confirm.

3 Turn the M.C. dial to select one of the below.

- Select [WIRED] for the USB connection.
- Select [BLUETOOTH] for the Bluetooth connection.

4 Press SRC/OFF to select [SPOTIFY].

5 Launch the Spotify application on the mobile device and start playback.

Basic operation

MVH-X3000BT

MVH-S325BT

About the main menu

You can adjust various settings in the main menu.

1 Press the M.C. dial to display the main menu.

2 Turn the M.C. dial to select one of the categories below, then press to confirm.

- FUNCTION settings
- AUDIO settings
- SYSTEM settings
- ILLUMINATION settings
- MIXTRAX settings
- MICROPHONE settings (only for MVH-X3000BT)

3 Turn the M.C. dial to select the options, then press to confirm.

Frequently used operations

Purpose	Operation
Turn on the power	Press SRC/OFF to turn on the power.
Adjust the volume	Turn the M.C. dial.
Select a source	Press SRC/OFF repeatedly.
Change the display information	Press DISP/DISP OFF repeatedly.
Return to the previous display/list	Press BAND/◀.
Return to the normal display from the menu	Press and hold BAND/◀.
Change the display brightness	Press and hold BAND/◀.

USB/iPhone®/AUX operation

(iPhone source is not available when [USB MTP] is set to [ON] in the SYSTEM settings.)

USB/iPhone

1 Open the USB port cover.

2 Plug in the USB device/iPhone using an appropriate cable.

MTP connection

A device installed with Android OS 4.0 or most of later versions can be connected to the unit via MTP, using the cable supplied with the device. However, depending on the connected device, OS version or the numbers of the files in the device, audio files/songs may not be able to be played back via MTP.

NOTE
If you use an MTP connection, [USB MTP] needs to be set to [ON] in the SYSTEM settings.

AUX

1 Insert the stereo mini plug into the AUX input jack.

2 Press SRC/OFF to select [AUX IN] as the source.

Bluetooth connection

Up to two Bluetooth telephones can be connected simultaneously.

1 Turn on the Bluetooth function of the device.

2 Select the unit name shown in the device display.

3 Make sure the same 6-digit number appears on this unit and the device.

4 Select [YES].

Bluetooth telephone

Basic operations

Purpose	Operation

<

Esta guía tiene la intención de guiarlo a través de las funciones básicas de esta unidad.
Para más detalles, consulte el manual de operación que se almacena en este sitio web.
<http://pioneer-mexico.com.mx/car>

Antes de comenzar

Gracias por adquirir este producto PIONEER.

Para asegurar un uso correcto, lea este manual por completo antes de usar el producto. Es de especial importancia que lea y cumpla con las **ADVERTENCIAS** y **PRECAUCIONES** de este manual. Consérvele en un lugar seguro y de fácil acceso para consultarla en el futuro.

ADVERTENCIA
• No trate de instalar o reparar este producto usted mismo. La instalación o la reparación de este producto por parte de personas sin cualificación ni experiencia en equipos electrónicos y accesorios para automóviles puede ser peligrosa y puede exponerle al riesgo de sufrir una descarga eléctrica u otros peligros.

• No intente utilizar la unidad mientras esté conduciendo. Asegúrese de salir de la carretera y aparcar su vehículo en un lugar seguro antes de intentar utilizar los controles del dispositivo.

La operación de este equipo está sujeta a las siguientes dos condiciones: (1) es posible que este equipo o dispositivo no cause interferencia perjudicial y (2) este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada.

PRECAUCIÓN
• No permita que esta unidad entre en contacto con humedad y/o líquidos. Puede sufrir un choque eléctrico. Además, el contacto con líquidos puede provocar daños en la unidad, humo o sobrecalentamiento.

• Mantenga siempre el volumen lo suficientemente bajo como para poder escuchar los sonidos que provienen del exterior.

• Este producto es evaluado en condiciones de clima moderado y tropical en aparatos electrónicos de audio, video y similares. Requisitos de seguridad, IEC 60065.

La operación de este equipo está sujeta a las siguientes dos condiciones: (1) es posible que este equipo o dispositivo no cause interferencia perjudicial y (2) este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada.

En caso de problemas con el dispositivo
Si esta unidad no funciona correctamente, póngase en contacto con su concesionario o con el centro de servicio PIONEER autorizado más cercano.

Amplificador de potencia (se vende por separado)

Instalación

Importante

• Compruebe todas las conexiones y los sistemas antes de la instalación final.

• No utilice piezas no autorizadas, ya que pueden causar un mal funcionamiento.

• Consulte con su concesionario acerca de la instalación en los lugares oficiales u otras modificaciones en el vehículo.

• No instale esta unidad donde:

– pueda interferir con el funcionamiento del vehículo.

– pueda causar lesiones a un pasajero como resultado de una frenada repentina.

– instale esta unidad en lugares calientes, como cerca de la salida de la calefacción.

– Se logra un rendimiento óptimo cuando la unidad se instala con un ángulo de menos de 60°.

– Cuando se lleva a cabo la instalación, para garantizar la correcta dispersión del calor al utilizar este producto, asegúrese de dejar un espacio amplio detrás del panel trasero y enrollar los cables sueltos para que no obstruyan las aberturas de ventilación.

• Deje espacio suficiente
